SUBSCRIPTION INFORMATION

The Job Information Lists are published four times during the academic year--in October, December, February, and May. All issues provide information about four-year colleges and universities; the February and May issues contain supplementary two-year college listings. Information on specific vacancies received after publication of the final May issue will be compiled in a special summer List and mailed to all subscribers around 1 July. All copies of the Lists are sent by first-class mail in order to insure that subscribers receive them promptly.

1973-74 subscribers interested in re-subscribing for 1974-75 (beginning with the October 1974 issue) should send a letter requesting an application form, together with a stamped, self-addressed envelope, directly to the MLA Job Information Service, 62 Fifth Avenue, New York, N.Y. 10011. Application forms will be available by mid-summer. Chairmen of departments which are members of the Association of Departments of English receive all issues without charge.

Further inquiries should be addressed to Ms. Kristin Helmers, Coordinator, Job Information Service, Modern Language Association, 62 Fifth Avenue, N.Y., N.Y. 10011.

INFORMATION FOR CANDIDATES

In This Issue. Information for this issue was provided by nearly 1200 departments in the U.S. and Canada, including 270 statements from community and junior college chairmen. While this response compares favorably with February, the number of jobs for academic 1974-75 has fallen--as expected, since many chairmen report that previously advertised positions have now been filled. Hiring plans for academic 1975-76 have already been formulated by a number of departments; this edition contains notice of 38 possible or probable vacancies beginning in September 1975.

The format of the List has been changed slightly in this issue. All statements received from chairmen (positive, negative, and indecisive), including departments of comparative literature and linguistics, are now located in the main body of the text in zip code order. The "Additional Entries" section, beginning on page 60, contains information on foreign and nonacademic job opportunities as well as those "regular" listings received too late to be included in the main section. Individual boxes containing the statement "No Information Received by Press Deadline," formerly included in the main body, have now been eliminated; instead, institutions and departments from which no response was received are listed in zip code order in a separate section beginning on page 65.

General Advice. Be sure that your dossier (transcript, letters of recommendation, and other material) is ready to be sent out by your placement bureau to any chairman who requests it. Prepare and duplicate a one-page vita sheet to enclose with any letters of inquiry or application. In your letters of application, it is probably wise to express a willingness to be interviewed at the chairman's convenience. Professional meetings provide a convenient opportunity for such interviews.

While it is important to begin to search for a position immediately, you should be aware that hiring goes on all year. The 1970 MLA Manpower Survey indicated that only about half of all English and Foreign Language departments have begun recruiting by the end of December, and that the majority of departments do not complete the recruiting process until spring, in some cases until summer.

Bear in mind that the candidate who has not limited his search for a new position to a particular geographic area or kind of institution is most likely to find a position. Do not discount the small colleges or emerging institutions where one often has the opportunity to teach a wide selection of courses to students of varied backgrounds.

Guide for Using the Job Information Lists.

(1) Read through the issue item by item to see which departments would welcome your letter of application or inquiry at this time.

(2) Use the zip code index on the inside front cover to find the states and regions of particular interest to you.

(3) Send letters of application only to departments that have expressed an interest in receiving letters from candidates with your qualifications. If a department reports that it has no vacancies, do not waste your time and the chairman's time by writing. Chairmen will report any changes in their hiring situation in future Lists.

(4) If no information has been provided by the chairman in this issue, you must judge in each case whether or not a letter of inquiry would be worthwhile.
